

Q22 - To the best of your knowledge, where is student data in your LMS stored? (Select all that apply)

On the course instructor's computer

In a computer in the information technology (IT) department

(MOST-CORRECT ANSWER) On a server maintained by the company that sells and supports your LMS

On a university administrator's computer

On a server maintained by the state government outside of the university

LMS data is stored on an Amazon Cloud server maintained by Instructure. Amazon does not have access to this data.
